## SUMMARY

MCA graduate (2024) with 11 months of internship experience in API integration, backend systems, and full-stack development using Java and React. Skilled at collaborating with cross-functional teams, articulating technical solutions, and delivering production-ready applications. Recognized for strong problem-solving abilities, adaptability, and effective teamwork.

## EXPERIENCE

### MResult

January 2025 – June 2025

*Trainee Software Developer Intern*

*Mumbai, Maharashtra*

- Developed the backend for eKYC verification and document OCR processing using Spring Boot and PostgreSQL, automating workflows to cut customer onboarding time by 30%.
- Accelerated customer enablement by delivering technical demos and workshops on eKYC onboarding and linear workflow automation within Newgen OmniDocs.
- Acted as a technical bridge between clients and engineering to resolve integration challenges, leveraging knowledge of enterprise systems Newgen DMS and Zoho CRM.
- Collaborated with cross-functional teams to design and implement secure, scalable backend solutions for enterprise Document Management (DMS) and Loan Origination (LOS) systems.

### Logixal Cloud Solution LLP

March 2024 – July 2024

*Trainee Software Engineer Intern*

*Mumbai, Maharashtra*

- Designed and validated API flows with Java, Spring Boot, and Postman for reliable integrations.
- Automated core banking workflows, streamlining common testing and deployment tasks.
- Supported onboarding for multiple demo clients, earning positive feedback for responsiveness and attention to detail.
- Collaborated with cross-functional teams to troubleshoot and resolve technical issues quickly, showcasing adaptability and teamwork.

## EDUCATION

**Master of Computer Applications (MCA)** | MET Institute of Computer Science | CGPA: 8.86

November 2022 – July 2024

**Bachelor of Science in IT (B.Sc. IT)** | Kirti M. Doongursee College | CGPA: 9.27

June 2019 – June 2022

**HSC – Science** | D. G. Ruparel College | 64.31%

June 2018 – May 2019

## PROJECTS

**Banking System Prototype – Logixal Cloud Solution** | *Spring Boot, React JS, Tailwind CSS, MySQL, Spring Security*

July 2024

- Built a full-stack banking prototype with modules for accounts, NEFT, withdrawal, and deposit.
- Elevated the project beyond a standard demo by implementing secure, reusable APIs with Spring Security and JWT, strengthening skills in realistic transactional flows and full-stack integration.

**ProConnect – Professional Networking Site** | *MERN Stack*

March 2022

- Developed a professional networking platform using the MERN stack to connect students, recruiters, and placement committees with features for profiles, job postings, and connections.
- Focused deeply on backend security and modularity to handle sensitive campus networking workflows, building strong skills in authentication strategies and data modeling for large user bases.

**NewsNexus – News Forum Site** | *Java, HTML, CSS, JavaScript*

July 2023

- Created a news aggregation site using Java and vanilla JavaScript, featuring dynamic content filtering and API-driven news updates.
- This project focused on enhancing user experience with a responsive interface and practicing foundational skills in front-end development and API consumption.

## TECHNICAL SKILLS AND TOOLS

Java, Spring Boot, RESTful APIs, JWT, OAuth, PostgreSQL, MySQL, Redis, React JS, HTML, Tailwind CSS, JavaScript, Python, Postman, Swagger, Git and Microservices.

## CERTIFICATIONS

**Building Scalable Java Microservices with Spring Boot and Spring Cloud** – Coursera

January 2024

**Career Essentials in Data Analysis** – Microsoft and LinkedIn

January 2024

**AWS Academy Cloud Foundations** – AWS Academy Graduate

December 2023
